This product should be used by any person on a kilojoule restricted diet as a dietary supplement. It also enhances the metabolism and regulates the water content in the cells and body.

PACKAGING:

60’s: Pack size = 10
**DESCRIPTION: UP0118**

Suplimax Folic acid capsules is a supplementary vitamin used for prophylaxis and treatment of megaloblastic anemia. It is also often used during pregnancy as a supplement of folate in the body. The daily requirement for iron and folate increases during pregnancy due to a higher demand for red blood cells to supply the fetus of blood and necessary minerals and elements. Furthermore, it also assists in preventing miscarriage and neural tube defects during pregnancy. Folic acid is also used to treat or prevent low blood levels of folate, which left untreated, can lead to complications such as “tired blood”, and the inability to absorb nutrients within the bowel.

**PACKAGING:**

30’s, 100’s, 1000’s: Pack size = 10

---

**DESCRIPTION: UP0119**

Suplimax FerroFolic capsules is a supplementary product to treat or prevent low blood levels of iron or folate, or iron deficiency (anemia). It is also regularly prescribed during pregnancy. Folic acid is essential in assisting the body to produce genetic material (DNA). Suplimax FerroFolic helps to restore and maintain normal red blood cell and DNA production in the human body, especially patients with low blood levels of iron (anemia) and folate, and also supplementary during pregnancy.

**PACKAGING:**

30’s, 1000’s: Pack size = 10
SUPLIMAX COLESTEROL CARE - 90’S

DESCRIPTION: UP0127

Suplimax Cholesterol Care has a unique formulation of different Minerals and herbs which can help to manage the blood cholesterol levels.

Suplimax Cholesterol Care contains the following:
- Ca D Pantothenate plays a critical role in the metabolism and breakdown of proteins, carbohydrates and fats. It causes an 80% inhibition in cholesterol synthesis.
- Policosanol helps to decrease cholesterol production in the liver and increase the breakdown of bad LDL cholesterol and fenugreek increases the excretion of cholesterol and reduces the rate of hepatic synthesis of cholesterol.
- Spirulina helps to lower LDL cholesterol and triglyceride levels and significantly increase HDL levels (Good cholesterol) whilst Inositol hexanicotinate releases a form of niacin which lower blood fats such as cholesterol. Vitamin C is the natural HMG-CoA reductase inhibitor and lowers cholesterol. Resveratrol, Artichoke Extract and Citrus bioflavonoids may reduce total cholesterol and LDL cholesterol.

PACKAGING:

90’s: Pack size = 10

SUPLIMAX URINARY TRACT CARE - 60’S

DESCRIPTION: UP0128

Suplimax Urinary Tract Care has a unique formulation of different herbs and probiotics which can help to manage as a diuretic astringent and antiseptic. It is a general tonic for weakened kidneys, can prevent urinary tract infections, kidney stones and chronic cystitis, neutralizes acidity in the urine and can increase urine flow.

PACKAGING:

60’s: Pack size = 10
**SUPLIMAX STUDY AID - 30’S**

**DESCRIPTION: UP0129**

Suplimax Study Aid helps to nourish and protect our precious brain cells. It promotes sharp memory and optimize mental focus and brain function. It can also help to support peak brain energy, encouraging circulation to the brain and support emotional well-being. It can lengthen your attention span and boosts decision making skills. Keeps your brain young and sharp.

**PACKAGING:**

30’s: Pack size = 10

---

**SUPLIMAX BLOOD PURIFIER - 30’S**

**DESCRIPTION: UP0136**

- Detoxifying and support for healthy blood.
- Promotes circulation and proper function of the liver
- Supports healthy skin and clear complexion.

**PACKAGING:**

30’s: Pack size = 10
**SUPLIMAX HERBAL SKIN CANCER CREAM - 75 ML**

**DESCRIPTION: UP0125**

ENDURANCE ELECTROLYTE MIX NO. 1  33
ENDURANCE ELECTROLYTE MIX NO. 2  34
COTRIMOX POWDER - 20 g
ENDURANCE ELECTROLYTE MIX NO. 1

DESCRIPTION: UP0034

The use of electrolyte supplements has the potential to significantly affect a horse’s performance and recovery from exertion. Horses sweat to cool their body temperature which increases when muscles work. When the body sweats it releases body fluids via the sweat glands with the horse losing chloride, sodium, potassium and calcium and magnesium. The loss of these minerals leads to general and muscle fatigue. An electrolyte supplement is useful to help a horse both replace lost electrolytes and to rehydrate efficiently and safely.

PACKAGING:

Pack size = 5 kg

ENDURANCE ELECTROLYTE MIX NO. 2

DESCRIPTION: UP0035

The use of electrolyte supplements has the potential to significantly affect a horse’s performance and recovery from exertion. Horses sweat to cool their body temperature which increases when muscles work. When the body sweats it releases body fluids via the sweat glands with the horse losing chloride, sodium, potassium and calcium and magnesium. The loss of these minerals leads to general and muscle fatigue. An electrolyte supplement is useful to help a horse both replace lost electrolytes and to rehydrate efficiently and safely.

PACKAGING:

Pack size = 5 kg
COTRIMOX POWDER - 20 G

DESCRIPTION: UP0036

When reconstituted with water it is used for the treatment of enteritis, pneumonia or urinary tract infections caused by susceptible strains of bacteria.

PACKAGING:

EXTERN CALAMINE LOTION - 100 ML

DESCRIPTION: UP0001

Calamine Lotion has mild astringent and antipruritic actions and is used in a variety of skin conditions. Pruritus or itching is a common symptom of many skin disorders as well as several systemic diseases e.g. Chickenpox. The activity of topical preparations such as Calamine lotion is based on the inclusion of a local anaesthetic such as Phenol.

PACKAGING:

100 ml: Pack size = 12

EXTERN CALAMINE LOTION - 200 ML

DESCRIPTION: UP0002

Calamine Lotion has mild astringent and antipruritic actions and is used in a variety of skin conditions. Pruritus or itching is a common symptom of many skin disorders as well as several systemic diseases e.g. Chickenpox. The activity of topical preparations such as Calamine lotion is based on the inclusion of a local anaesthetic such as Phenol.

PACKAGING:

200 ml: Pack size = 6
EXTERN VAPOUR RUB - 15 G

DESCRIPTION: UP0003

Menthol is chiefly used to relieve symptoms of bronchitis, sinusitis and similar conditions. It can be used as an inhalation or in combination with camphor and eucalyptus oil as an ointment for application to the chest or nostrils. When applied to the skin, menthol dilates the blood vessels, causing a sensation of coldness followed by an analgesic effect.

PACKAGING:

15 g: Pack size = 12

EXTERN VAPOUR RUB - 50 G

DESCRIPTION: UP0004

Menthol is chiefly used to relieve symptoms of bronchitis, sinusitis and similar conditions. It can be used as an inhalation or in combination with camphor and eucalyptus oil as an ointment for application to the chest or nostrils. When applied to the skin, menthol dilates the blood vessels, causing a sensation of coldness followed by an analgesic effect.

PACKAGING:

AQUEOUS CREAM WHITE - 500 G

DESCRIPTION: CP0004
An affordable moisturizing cream, treating dry skin conditions, leaving it smooth and supple. Ideally used all year round.

PACKAGING:
500 g: Pack size = 6
MILKING CREAM - 250 G

DESCRIPTION: CP0028

Milking cream is traditionally used as a lubricant when cattle were milked by hand. The workers then realized that the milking cream has an excellent emollient and softening effect when used on their hands. It contains petroleum jelly, liquid paraffin and lanolin, which have excellent emollient properties. The addition of lanolin permits a threefold increase in the amount of water, which can be incorporated in the petroleum jelly to form a stable emulsion.

PACKAGING:

250 g: Pack size = 6

MILKING CREAM - 500 G

DESCRIPTION: CP0029

Milking cream is traditionally used as a lubricant when cattle were milked by hand. **DERMALITE CREAM - 50 G**

**DESCRIPTION: CP0015**

Daily use of DERMALITE cream will restore damaged skin to its natural beauty. Dermalite contains an ascorbic acid (vitamin C) derivative, which is completely harmless and reduces MELANIN and enhances COLLAGEN formation if used daily for a prolonged period. This will have a skin lightening effect without any side effects. Dermalite, when used on a daily basis, will oppose the Ultraviolet induced immunosuppression, thus prevents skin cancer caused by sun exposure, reduces wrinkling by promoting skin elasticity and reduces photo spotting. For best results apply twice daily to the face, neck, open skin areas and dark spots.

**PACKAGING:**

50 g: Pack size = 4

**BUZZ-OFF INSECT REPELLENT STICK - 30 ML**

**DESCRIPTION: CP0071**

BUZZ-OFF skin application, with their unique formulae that immediately disappears on application, protects you against the malaria mosquitoes. The Insect repellent is effective for several hours in-house and outdoors. With high humid conditions and excessive perspiration application must be repeated at regular intervals when needed. As active ingredients BUZZ-OFF contains DEET and Citronella oil, and therefore contact with eyes, mouth and open wounds have to be avoided. It is also effective against flies on the ears of dogs, sand flies, fleas and ticks.
